EAS The Dual Career Network

Image Portfolio

You will see three images, a screen shot of the EAS website homepage, the growing membership page and the EAS Executive Committee in 2011. The images presented are one of many within a "strap", a rotating collection of photos, with a click through option to the relevant event or news story.

This small collection is an example of a development project for the EAS website where interest is continuously increasing. EAS is creating an Image Portfolio collated from member's photography; this includes any imagery from past EAS events & meetings as well as providing an opportunity for our members to promote any upcoming events they are hosting/have hosted.
